# 2016 GLOBAL LEADERSHIP FORUM EXHIBITION HANDBOOK

8:30 am – 7 pm

June 1, 2016

#lead4dev | [leadfordev.org](http://leadfordev.org)

# INTRODUCTION

The **Leadership, Learning and Innovation (LLI) vice presidency** and the **Equitable Growth, Finance and Institutions (EFI) vice presidency** are hosting the **Global Leadership Forum in Washington, D.C. on June 1-3, 2016**. The Forum is the leading event of the **Global Partnership on Collaborative Leadership for Development (GPCL4D)** that will gather about 200 partners, leaders and practitioners from government, private enterprise, academia, civil society and other development actors.

The **GPCL4D** seeks to put leadership and coalitions at the center of development by continually enhancing the know-how around practical approaches to find sustainable solutions to complex problems, and brings a vision to become the preferred destination for meaningful collaboration, knowledge exchange and cutting-edge research on tools and methods to support leadership.

The Global Leadership Forum 2016 provides booth spaces for partners to display their work. These booth spaces are set up in the World Bank Atrium during the first day of the Forum on June 1, 2016 from 8:30 am to 7 pm.

We invite you to discover the work of selected partners of the the Global Partnership on Leadership for Development.

## The World Bank Collaborative Leadership for Development Program (CL4D)

The CL4D program, in collaboration with Global Partnership for Collaborative Leadership for Development Partners (GPCL4D), seeks to help in-country reform teams in implementing Government priorities in Bank-supported projects. It is designed to facilitate the implementation of development projects by addressing the ‘people’ issues that often impede the pace of implementation of otherwise technically well-designed projects. Focusing on behavioral changes required to think and work together differently, CL4D with GPCL4D partners build teams’ capacity to identify and mobilize stakeholders, build coalitions around complex challenges, and achieve results. Consequently, teams adopt a multi-stakeholder approach to developing innovative ways to address local challenges and deliver results within a short timeframe. Over the last four years, CL4D has worked in 25 countries and across 8 sectors in supporting implementation of reforms. During this time, 435 coalitions were built or supported, out of which 319 coalitions reported achieving 70% or more of their goal.

## Center for International Private Enterprise (CIPE)

The CIPE has extensive experience in advancing policy dialogue around the world. CIPE supports market-oriented reform and private sector development by mobilizing representative business associations and strengthening their capacity to advocate for policy solutions. In addition to programs for public-private dialogue, CIPE has leadership programs for young entrepreneurs and capacity building programs for business association executives.

## Connective Leadership Institute

The Connective Leadership Institute (formerly the Achieving Styles Institute) is a leadership development and research firm. Its mission is to provide leaders globally and locally with visionary, but pragmatic, research-based Connective Leadership™ Development programs and strategies for succeeding in a world where interdependent, but diverse, groups must live and work together productively and harmoniously. The Connective Leadership Institute presents certification seminars to train organizational leaders, managers, and consultants, leadership development and change management experts, human resource specialists, talent recruiters, and executive coaches to use the Connective Leadership™/Achieving Styles™ Models and assessments. The Institute also provides custom-designed organizational consultations, executive seminars, and executive coaching.

## Dalberg

What if no leadership program were to be undertaken without clearly defined stakes. What if individual aspirations and organizational goals anchored leadership and change programs, not theoretical frameworks. What if conventional methods were a last resort; and no last resorts were allowed. What if the only admissible evidence of success for a leadership and change program is how the needle has moved on results. As a mission-driven top tier strategy and advisory firm deploying innovative approaches, Dalberg has assessed and developed change leaders, teams, organizations, and ecosystems to play a transformative role.

---

## Effective Institutions Platform (EIP)

The EIP is an alliance of over 65 countries and organizations (donor agencies, civil society, think tanks) that support country-led and evidence-based policy dialogue, knowledge sharing and peer learning on public sector management and institutional reform. The EIP supports its members in their development of accountable, inclusive and transparent public sector institutions capable of delivering responsive policies, effective resource management, and sustainable public services for poverty reduction and inclusive growth.

## InterAction

InterAction is an alliance organization in Washington, D.C. of nongovernmental organizations. Our 180-plus members work around the world. What unites us is a commitment to working with the world's poor and vulnerable, and a belief that we can make the world a more peaceful, just and prosperous place – together. InterAction serves as a convener, thought leader and voice of our community. Because we want real, long-term change, we work smarter: We mobilize our members to think and act collectively, because we know more is possible that way. We also know that how we get there matters. So we set high standards. We insist on respecting human dignity. We work in partnerships.

[www.interaction.org](http://www.interaction.org)

## The Blue Ribbon Movement (BRM)

We are a social enterprise that creates and nurtures social leaders. BRM's expertise lies in designing and delivering leadership programs for young people across borders and on different scales, thus being committed to leadership development. We have been able to develop a rich repository of leadership knowledge based on the number of programs we have run, and the years of experience we have.

---

## The Community Box

The Community Tool Box, contains more than 7,000 pages of practical how-to information for community building-- available in English, Spanish and Arabic. During the past year, there were over 5.6 million users of the Community Tool Box from 230 countries (as defined by Google). The Community Tool Box is a public service of the Work Group for Community Health and Development, a designated World Health Organization Collaborating Centre at the University of Kansas, which works to expand the evidence base for collaborative action for health and equity, and to build capacity for this work locally and globally.

## The Consensus Building Institute (CBI)

The CBI empowers leaders around the world to collaborate, negotiate, resolve conflict, and create sustainable initiatives and partnerships. CBI is a not-forprofit organization founded in 1993 by leading practitioners and theory builders in the fields of negotiation and dispute resolution. Our staff and Global Network bring decades of experience brokering agreements and building collaboration in complex, high-stakes environments. Our global work focuses on engaging economic, environmental, and social stakeholders to resolve development conflicts and create sustainable development solutions. We have crafted our approach through more than twenty years of theory-practice engagement with the Program on Negotiation at Harvard Law School and other thought leaders in mutual gains collaboration.

## The Development Leadership Program (DLP)

The DLP is an international research initiative that explores how leadership, power and political processes drive or block successful development. It focuses on the crucial role of home-grown leaderships and coalitions in forging legitimate institutions that promote developmental outcomes, such as sustainable growth, political stability and inclusive social development. DLP is based at the University of Birmingham (UK), and works in partnership with University College London and La Trobe University in Melbourne. Its independent program of research is supported by the Australian Government.

## The Georgetown University

Founded in 1789 to educate the leaders of a new nation, Georgetown University is one of the oldest and most prestigious universities in the United States. Though much has changed in more than 200 years, our mission to prepare and educate global leaders remains the same. The Office of Executive Education at Georgetown's McDonough School of Business works with organizations around the world to build degree and custom programs tailored to advance their business and leadership goals. Known for our client-centric approach, we leverage our expertise in global business and location in Washington, D.C. to create unforgettable learning experiences for our participants.

## Stanford Leadership Academy for Development

The Leadership Academy for Development (LAD) trains government officials and business leaders from developing countries to help the private sector be a constructive force for economic growth. It teaches carefully selected participants how to be effective reform leaders, promoting sound public policies in complex and contentious settings. Policy reform is unlike engineering or other technical fields that have discrete skills and clear, optimal solutions. Instead, successful reformers must weigh a broad range of factors that influence policy outcomes. They must have a solid grasp of country-specific economic, financial, political and cultural realities. Most importantly, they must know how to set priorities, sequence actions and build coalitions. LAD provides participants with an analytical framework to build these abilities and operate effectively under adverse conditions.

## TLEX - Innovative Approaches to Individual and Organizational Transformation

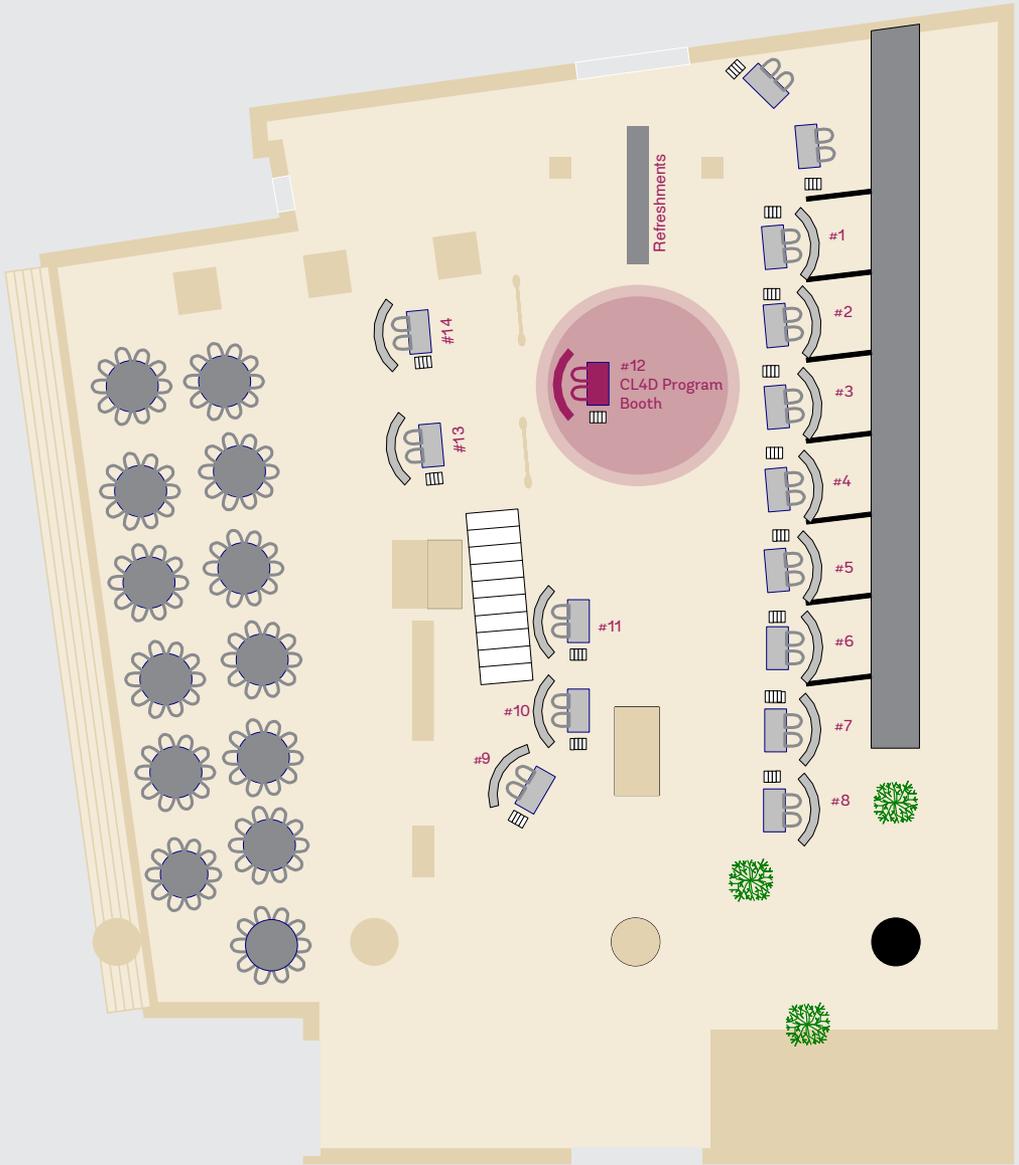

The TLEX program creates an internal enabling environment for transformational leadership. Today, leaders are often oversubscribed and have multiple competing demands on their time. In this environment, productivity and effectiveness can get compromised. Through a combination of experiential learning processes and practical breathing & meditation techniques, participants discover greater resources within themselves, and learn skills which help them to move beyond personal barriers to become more efficient and effective in their personal and professional lives. Continued practice of the breathing and meditation techniques taught during the workshop helps increase personal energy, emotional resilience, clarity of mind and the ability to connect & collaborate; all of which are important enabling blocks of leadership.
